WORK EXPERIENCE

MERN Stack Developer Intern

Millipixels Interactive

- Developed and deployed scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and implemented features for job posting, application management, and user authentication in a job-seeking website project.
- Collaborated with design and development teams to refine user interfaces and ensure a seamless user experience.
- Gained practical experience in full-stack development, including both front-end and back-end technologies.

PROJECTS

Job-Seeking Website

- Created a robust job-seeking platform using the MERN stack, incorporating functionalities for job posting, application tracking, and recruiter-employee interactions.
- Implemented features that allow recruiters to post jobs, review applications, and send acceptance or rejection messages to candidates.
- Ensured the application was user-friendly and responsive, optimizing for both desktop and mobile use.

SKILLS
